

## Products for Standard Resistors

### ADS SERIES

#### AC Shunt Standard Resistor

- Max.  $\pm 5$  ppm AC/DC difference @10 kHz and DC operations  
(Joint development with JEMIC: Japan Electric Meter Inspection Corp.)

### KSR SERIES

#### AC Standard Resistor

- Excellent AC stability with specially designed Bulk Metal<sup>®</sup> Foil element and package

### AVR SERIES

#### DC Voltage Divider

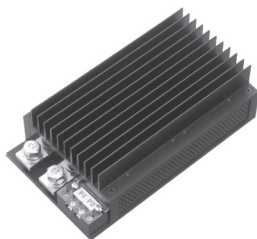

- Digital voltage meter calibration
- Dividing 50 V with  $\pm 0.001$  % accuracy

### ATB SERIES

#### Custom Resistance Box

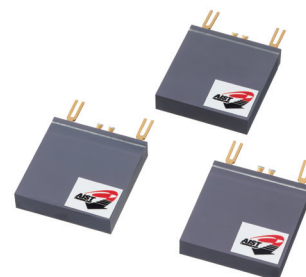

- Available any resistance values with electrical and mechanical specifications per requests

### APS SERIES

#### High Power Current Shunt Resistor

- Available any resistance value
- Max. working current up to 1000 A

### TYPE SSS

#### Stress free Bulk Metal<sup>®</sup> Foil resistor element (ceramic package)

- 1 ppm/year (actual) stability
